Care & Maintenance Guide

SAMPLE DOCUMENT — replace with the branded final guide

Everyday cleaning

Wipe with a soft cloth and warm soapy water; rinse and dry. Mild dish detergent is fine. For grease, use a non-abrasive degreaser and rinse.

Do

Use trivets under hot pans · use cutting boards · blot spills early, especially on light colours.

Don't

No bleach, oven cleaner, drain cleaners or paint strippers · no abrasive scrubbers or scouring powders · no standing water at seams.

Stubborn residue

Soften with a warm damp cloth, then lift with a plastic scraper. Test any specialty cleaner in an inconspicuous spot first.
